

preventative **SAVINGS PLAN**

We are excited to offer an in-office preventative savings plan for our established patients that do not have dental coverage, or that are currently self-insured and wish to make a change. This allows members to receive the preventative services needed to maintain a healthy mouth at a reduced cost without having to self-insure with an outside dental insurance plan.

With our preventative savings plan there are no deductibles, no waiting periods to begin treatment, and no yearly maximums.

The plan is renewed annually and begins on the day of registration. Savings plan fees may increase yearly, but not more than 5%.

Your preventative savings plan also entitles you to a 20% discount off of most services not covered in the savings plan with payment of cash, check, or credit card. If paying with Care Credit the discount amount will be 15%. Invisalign treatment and bleaching are excluded.

Preventative savings plan fees are due in full at the time of service to ensure the discounted rate. Fees will be collected in equal portions at each preventative

appointment. You may pay by check, cash or credit card.

Plan benefits for an adult annually includes 2 exams, necessary x-rays, 2 cleanings, and 2 fluoride treatments. If already in active periodontal maintenance due to prior treatment of gum disease, one additional cleaning will be allowed.

Plan benefits for children annually include 2 exams, necessary x-rays, 2 cleanings, and 2 fluoride treatments.

Adult savings plan fee for an individual is \$525 and \$500 for each additional adult.

Adult periodontal savings plan fee for an individual is \$735 and \$700 for each additional adult.

Child savings plan fee (age 13 and under) is \$400 for an individual and \$375 for each additional child.

Missed appointment fee of 25% of the treatment total will be charged for all missed dental appointments. Please notify our office at least 2 business days in advance if you must change an appointment.
